

I am a hard-working, creative problem solver driven by curiosity. My visionary nature allows me to see things from an unconventional perspective. My purpose is to seek an open-minded team who I can continuously learn from and together, we can use these skills to help others.

» Experience

General Assembly

Web Development Immersive Student

Providence, RI

Nov 2016 to Feb 2017

A 14-week, 600+ hour web development program focused on teaching modern programming fundamentals to develop full-stack web apps, both independently and as part of a team.

- Utilized several programming languages, frameworks, and technologies
- Tracked development process using Git and Github
- Created user stories and technical documentations for projects
- Researched and presented new features of languages (ES6, ActionCable for Ruby on Rails)
- Completed code-along exercises with instructors, individually, and pair programming

Service Contracting, Inc

Executive Assistant

Johnston, RI

Apr 2014 to Apr 2016

A small, privately owned commercial painting contractor.

- Used Microsoft Office to create job invoices, proposals, and detailed spreadsheets
- Ran weekly payroll using Paychex's UX.
- Created company's website using HTML5 & CSS3
- Attended company meetings with potential/current employers

» Development Projects

AWANDERLYSSGIRL

Feb 2017

A private blog that was built to share my travel experiences with my closest friends. Built using Ruby on Rails, HTML5, Bootstrap-sass(bootswatch). This app also has a chat feature that utilizes RoR's built-in ActionCable, a WebSocket interface for Rails.

GAMRBUDDY

Dec 2016

A Ruby on Rails full-stack app for gamers seeking help in completing co-op missions. This app also utilizes PostgreSQL, HTML5, and W3 templates(CSS3).

HANGMAN

Nov 2016

A client-side guessing game for two players that was built using HTML5, CSS3, and Javascript.

» Education

Community College of Rhode Island

A.S. Web Technology 2016

Graduated High Honors with a GPA of 3.73

Client-side Scripting, Programming Concepts, Beginning Game Programming, Systems Analysis and Design
